in some cases a shade lower. The railway bond market has been somewhat more setive, the business being well distributed with total sales of \$1,013,105. Prices are irregular this evening, but in many cases higher. The peaceful tenor of early cables and the advance in British consols led to a depression of prices on the Stock Exchange this morning, the first sales being at a decline of 1/4 to 9/8 per cent., and in the early dealings still lower prices were made for [Furnished by H. E. Kinney & Co., Grain and Promost of the active list, but the decline was quickly checked and there was a fractional reaction be-fore the close of the first half hour. The market then became less active without the development of any special feature and so continued during the greater part of the day with a slight yielding in quotations. In the afternoon Lackswanna developed a decided weakness, and the rest of the list spmpathized, but in the last hour there was renewed strength all along the line, and the market closed steady at the advarce, which leaves quotations this evening generally about midway between the highest and lowest price of the dey. There were not many stocks in which the extreme fluctuations reached 1 per cent., and only four show a decline of as much as 1 per cent., as compared with last evening. All the active list is

lower, bowever. The total sales were 242,761 shares, an increase over yesterday of 18,000 shares, but of to-day's business, 24 per cent, consisted of transactions in Union Pacific, which opened at 46%; sold early at 46%, and then declined until about midday, when it reached 45%, rallied to 46%, again declined to 45%, and in the last hour sold at 46%, the closing

The Executive Committee of the Union Pacific Company met to-day and approved the plan recently proposed for the settlement of the difficul-ties between the Pacific Mail Steamship Company and toe Pacific railroads, at the office of the Central Pacific Company in this city. It is also bedeved that a communication has been received from President Adams, of the Union Pacific, in regard to the proposed plan of settlement, and that the matter has been referred to the caffic and report. There were six stocks on the list Union Pacific, Lackswanna St. Paul, Pacifi Mail, Northwestern and Lake Shore, which in the order named, contributed 80 per cent, of the total day's business, the transactions in the different stocks ranging from 60,160 to 21,340 shares. The trading in no other stock on the list amounted to more than 8,100 shares. Northwestern is this eve ming 1/2 per cent. lower than it closed yesterday. and St. Paul is down only 16. Pacific Mail shows a decline of 16. COMMERCIAL.

Dry goods are doing fairly, considering the unweather. Groceries are also affected by the present atmospheric conditions, still being rather quiet. Prices, however, remain unchanged. Fine butter is very firm, the supply of this class being small. Cheese continues unsettled. Dried fruits, canned goods and fish remain quiet. Eggs and , coltry are also quiet.

Wheat-In local circles we note a decidedly weak feeling. Sales of No. 2 red were made on call at 98c track, but was declined on second call, and No. 2 red was offered at 97c track, or 95c regular, with only 96% bid. Receipts light. Futures dull and not wanted. New York shows the marked decline of 4c, and is decidedly sick. Baltimore is 36 to 2e lower, and Chicago in the same direction goes off 14c.

Corn-Lower and weaker. All grades are generally dull and offerings are light. Fututes not wanted. The decline and weakness at other points has effected the local markets and an indifference lewer. Baltimore the same, and Chicago 1/2 lower. Oats-Dull and lower; inquiries confined to cash deliveries. Futures friendless.

The North American Review. It is a curious fact that one of the most famous poems in our language appeared originally in a magazine that seldon touches poetry at all, and the same periodical, after an interval of sixty-six years, now brings out another poem very similar in theme. Bryant's "Thanatopsis" was first printed in the North American Review for September, 1817. The May number of the Review, just out, has a peem by Robert Buchavan on "The New Buddah." The critics found fault with Mr. Bryant's poem on the ground that it was un-Christian; it remains to be seen what they will say of Mr. Buchanan's. The question, "Has Christianity Benefited Woman?" is ably discussed in this number by Mrs. Elizabeth Cady Stanton and Bishop J. L. Spalding. President J. L. Pickard writes on "Why Crime is Increasing," and David Dud-ley Field on 'Industrial Co-operation," while Professor Andrew F. West, of Princeton, contributes an article of great clearness and strength on "What is Academic Freedom?' James Payn, the English novelist, disenses "Success in Fiction." and T. F. Thiselton Dyer, "Superstition in English Life." The new department of Comments keeps well up to the standard with which it

She did not suffer pain constantly, but only on making certain movements. She was, after taking about hair the bottle, greatly relieved, so that she could make the movements without pain, which before she could not."

\$500 Not Called For. It seems strange that it is necessary to persuade men that you can cure their diseases by offering a premium to the man who fails to receive benefit. And yet Dr. Sage undoubtedly cured thousands of cases of obstinate catarrh with his "Catarrh Remedy" who would never have applied to him if it had not been for his offer of the above sum for an incurable case. Who is the next bidder for cure or cash?
